01BT5SE

**Counterbalanced
motorised crane**

Cap. 500 kg

Mod. **01BT5SE** is a fully electric counterbalanced crane **270° pivoting arm**.
Equipped with 2 traction batteries. Ideal to do precision placements of any type of loads on 3D machines, machining centers, lathes, presses, etc, and to pass over any type of barriers and obstructions

Outreach of the arm with standard jib	
From 483 mm to 883 mm	
Capacity	From 500 kg to 320 kg
Outreach with extension jib (optional)	
from 928 mm to 1328 mm	
Capacity	from 220 kg to 160 kg

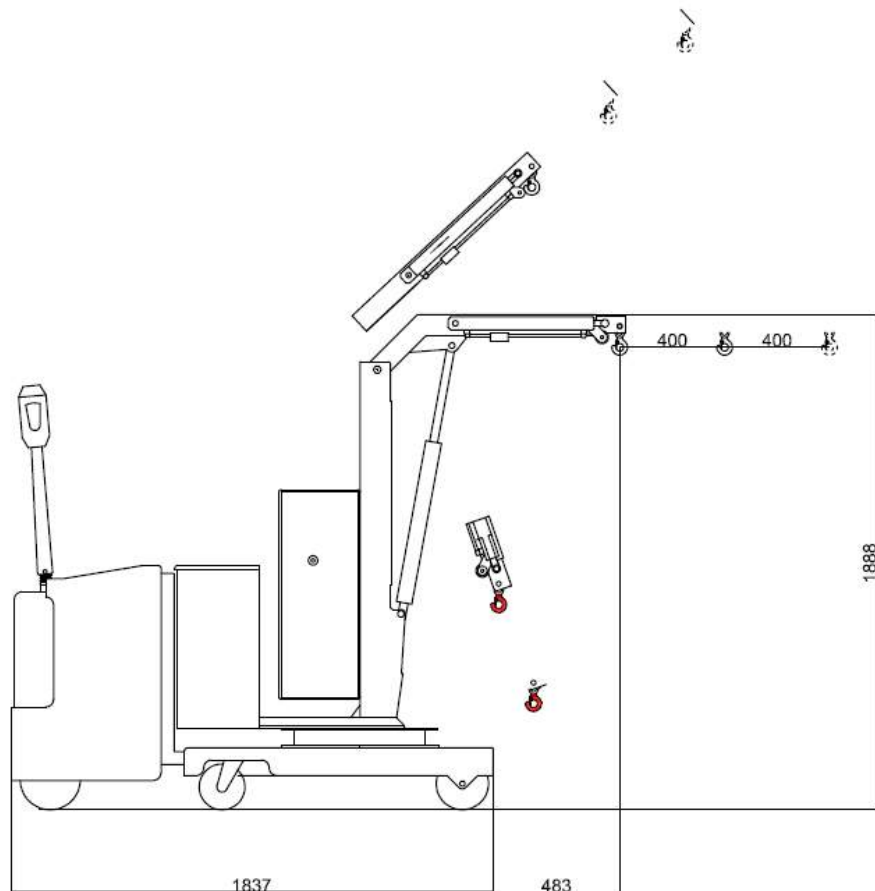

It is equipped with batteries and battery charger for the power drive and for the electric lifting

Technical Specification		
Weight	[kg]	1050
Max cap.	[kg]	500
Max pressure	[BAR]	150
Motor Power (lifting)	[W]	300
Motor Power (traction)	[W]	1200
Tank capacity	[L]	2

With mod. 01BT5SE loads are lifted and placed in full compliance with Health and safety rules

The crane is equipped with two safety valves. One valve prevents the falling of loads in the event of hose failure, and the other prevents machine overloading
